

DIN01 - Din Rail Mounting Kit

Two plastic clips with screws to facilitate mounting PCBs to DIN rail.

For optional use with the PP5FR-UNI or as spare parts for other Jack Fuse products.

Can also be used for third part products.

Notes

A versatile kit that can be used to mount printed circuit boards to common DIN rail profiles.

An optional extra for the Jack Fuse Power Port PP5FR-UNI. This kit comes pre-fitted to other Power Port modules and can be used as a replacement part for broken/missing clips.

Also suitable for a range of third-party products.
